Please provide **site information** such as maps, lab and geotechnical data, cross sections of the area to be treated, boring logs, and well construction logs.

I. UNSATURATED CONTAMINATED ZONE INFORMATION

General Soil Description: _____

Volume to be Treated (yd³): _____
 Length (ft): _____ Width (ft): _____ Thickness (ft): _____

Soil Density (lbs/yd³): _____ Porosity (%): _____

Types of Contaminants:					
Average Concentration (mg/kg):					
Cleanup goals (mg/kg):					

II. SATURATED CONTAMINATED ZONE INFORMATION

General Soil Description: _____

Direction of Groundwater Flow: _____

Average Depth to Groundwater (ft bgs): _____ Water pH: _____

Volume to be Treated (yd³): _____ Length (ft): _____
 Width (ft): _____ Thickness (ft): _____

Soil Density (lbs/yd³): _____ Hydraulic Conductivity (cm/s): _____ Porosity (%): _____

DO (mg/L) _____ ORP _____

Types of Contaminants:					
Average Concentration (ug/L):					
Target Cleanup (ug/L):
